EXPERIENCE

Project Intern June 2025 - July 2025
High Point University Remote

- Engineered a collaborative JavaScript voting application enabling real-time participation for on-campus clubs
- Established version control workflows using GitHub with a 10-person team to maintain project documentation for clarity and knowledge transfer
- Developed backend infrastructure to handle concurrent user requests, ensuring data integrity and seamless vote processing
- Improved engagement by implementing responsive front-end interfaces and RESTful API endpoints

Lifeguard May 2020 - August 2025
Spring Lake Beach Department Spring Lake, NJ

- Supervised beach safety for 500+ daily patrons, identifying hazards including rip currents and weather conditions to prevent emergencies
- Learned emergency response protocols including water rescues, CPR, first aid, and AED deployment
- Communicated clearly with distressed patrons to reduce panic in high-pressure situations such as lost children and medical emergencies
- Taught important safety drills to aspiring "junior guards" in daily morning workouts 4 days a week

CAMPUS INVOLVEMENT

Treasurer August 2025 - Present
HPU Minds High Point, NC

- Presented club’s Galvanic Skin Response team project to Apple Cofounder, Steve Wozniak during a campus visit to demonstrate how fears can be addressed in virtual reality
- Managed annual budget of $24,000 throughout school year for club trips, speaker events, and workshops
- Coordinated weekly meetings for continuous club engagement and furthering GSR research

Member September 2023 - Present
Club Swim Team High Point, NC

- Committed 6 hours a week to training with team members in order to build cohesion
- Competed at monthly regional collegiate meets including UNC Charlotte and Clemson, representing High Point University against other club programs
